Oct 2017 – Jan 2021
Wrocław

About

I am a graduate of Computer Science from the Wrocław University of Technology, currently working as a Software Tester. Over the years, I've gathered experience in various projects where I had the opportunity to work on comprehensive software testing. Without a doubt, my strongest skills lie in Python and JavaScript (TypeScript), in which I am fully proficient. My interests primarily revolve around web development technologies, reflecting on my skills and passion for creating innovative solutions. As someone who is always seeking new challenges and opportunities for growth, I am committed to continually deepening my technical and practical knowledge. My attention to detail, ability to effectively problem-solve, and teamwork skills are my strongest assets in the IT field.

Work experience

Python Test Automation Engineer

TietoEvvry

Nov 2022 – Present
Wrocław

Project for Renesas Electronics focused on testing Bluetooth Low Energy SDK. Automation of tests cases with Robot Framework and Python.
